

Downtown Bellevue Projects

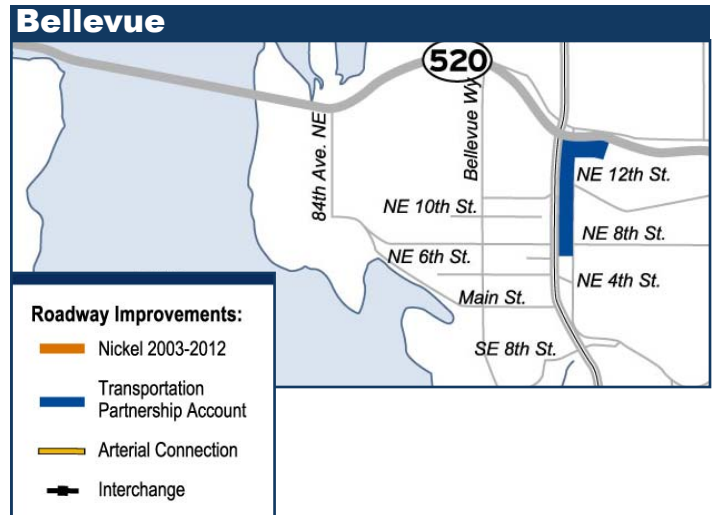

NB NE 8th St to SR 520 Braided Crossing \$250 million

Project Description

WSDOT will build new structures to separate north-bound traffic exiting to SR 520 from traffic entering I-405 in Bellevue. The project also builds an eastbound lane along SR 520 to separate the on and off ramp traffic between I-405 and 124th Avenue NE.

Project Benefits

- **Safety.** Improves safety by eliminating traffic weaves and reduces congestion-related and sideswipe accidents.
- **Congestion relief.** Improves traffic flow by relieving congestion caused by traffic weaving in the area of northbound I-405 to eastbound SR 520.

Project Timeline

- Project construction is scheduled to begin in 2009 and be complete in 2012.

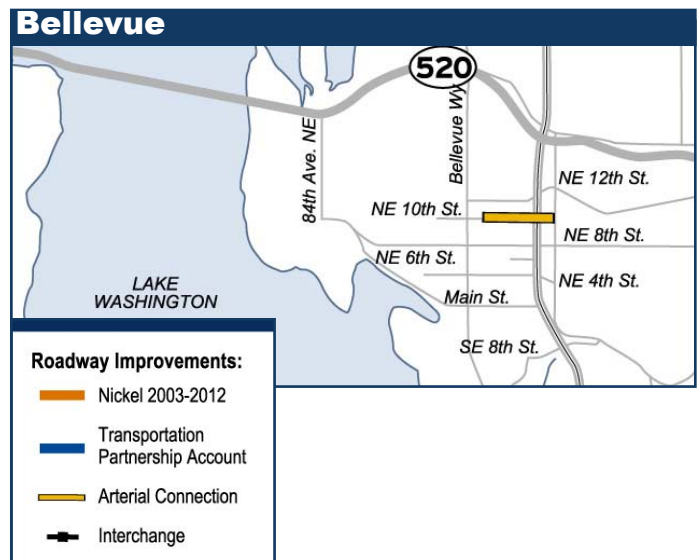

NE 10th St. Bridge Crossing\$67 million

Project Description

WSDOT will build a new bridge crossing at NE 10th Street allowing residents, visitors, and business people direct travel across I-405 on NE 10th, instead of relying on NE 8th.

Project Benefits

- **Safety.** Provides pedestrians a less congested and safer crossing of I-405.
- **Congestion relief.** Reduces congestion on NE 8th Street by drawing traffic to NE 10th.
- **Environment.** The I-405 Corridor Program is designing the project to avoid and minimize impacts to the environment.

Project Timeline

- Project construction is scheduled to begin in 2007 and be complete in 2009.
